Persico: 1976 - Looking Ahead

A Story of Innovation and Global Growth

1976 – THE BEGINNING

From a Small Workshop to a Vision

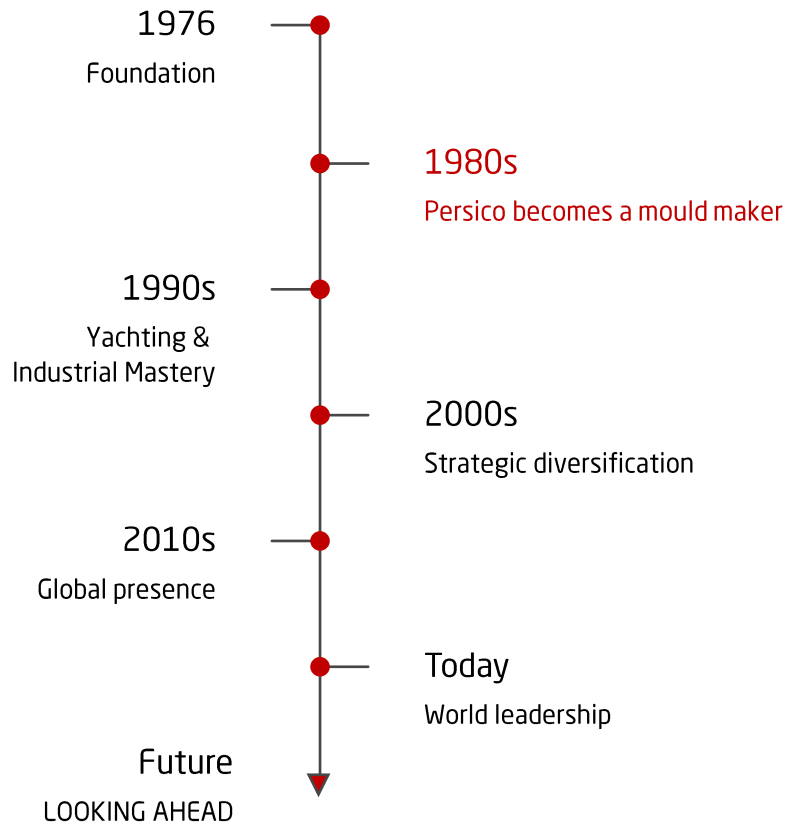

1976
Pierino Persico founds Persico, a wooden model shop

1980S – INNOVATION

Pioneering Rotomoulding Technology

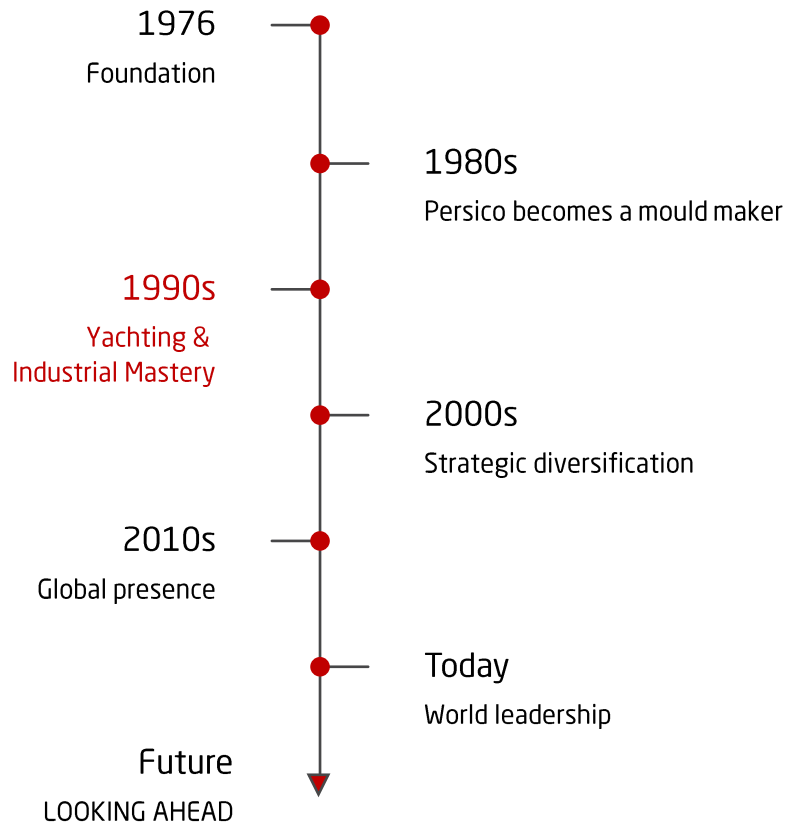

1980s
Persico Automotive and Persico
Rotomolded are founded

1990S – NEW HORIZONS

Setting Sail: Yachting & Industrial Mastery

1990
Persico Marine is established

1990s
Persico introduces CNC 5-Axis Milling

2000S – STRATEGIC DIVERSIFICATION

Technology Leadership

1976
Foundation

1980s
Persico becomes a mould maker

1990s
Yachting &
Industrial Mastery

2000s
Strategic diversification

2010s
Global presence

Today
World leadership

Future
LOOKING AHEAD

2000

First Leonardo Machine
(oil heated)

2007

Research and Development
departments are set up

2009

First Leonardo Machine
(electrically heated)

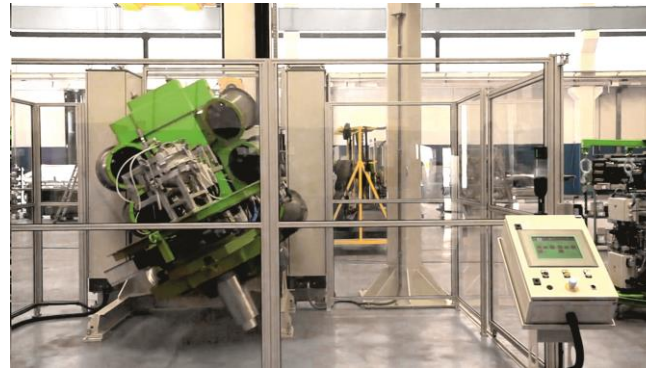

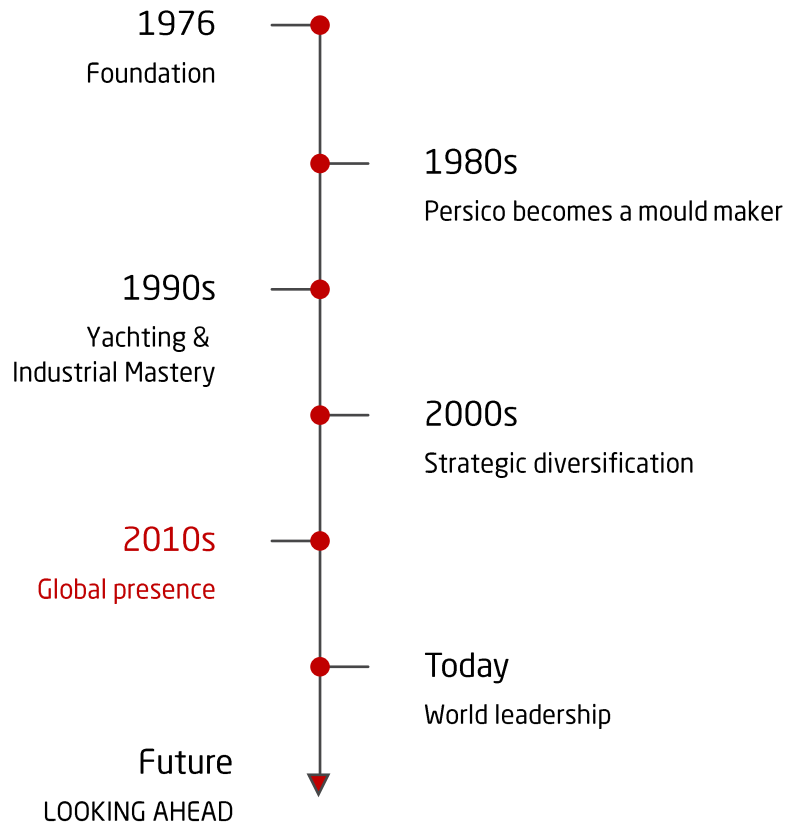

2009

Pierino Persico in the ARM rotational
moulding Hall of Fame

2010S – GLOBAL PRESENCE

Facilities Expansion and companies' acquisitions

2013
Persico USA, Inc. is founded

2013
First SMART 1,8 Machine

2014
Persico México is set up

2016
Pierino Persico is appointed to the
Order of Merit for Labour

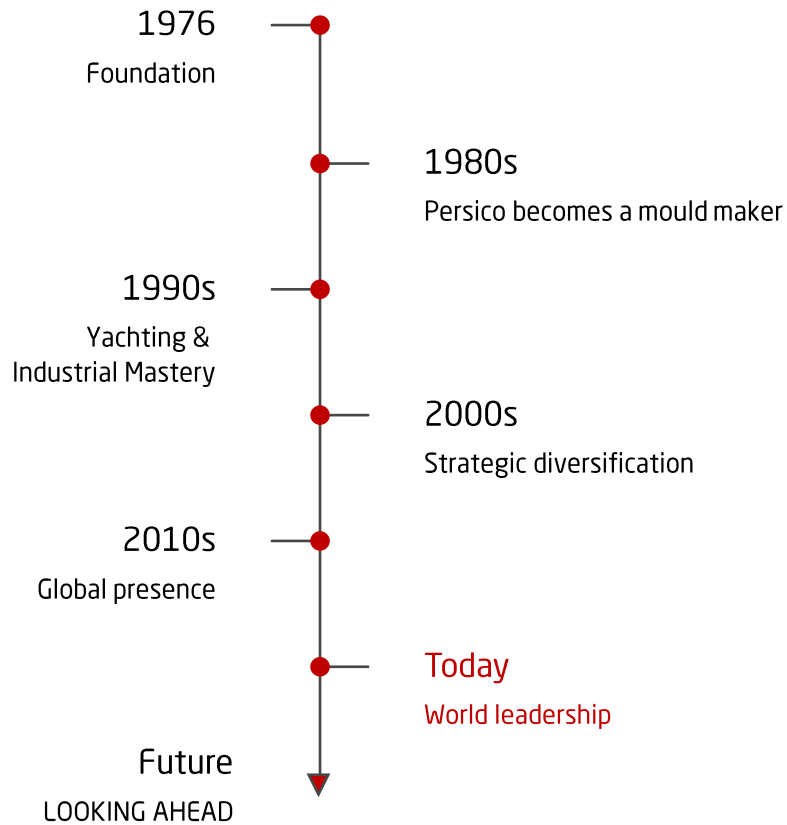

2017
First SMART 2,8 Machine

2020
Persico acquires Bielomatik
Persico Deutschland is founded

2020s – A NEW CHAPTER

Scaling Up: 800+ Employees & Global Reach

- 2022**
Persico México expanded.
New bielomatik subsidiary
- 2023**
Persico USA 10th anniversary
Precision Molds acquisition and
Persico Rotomoulding US foundation
- 2025**
Persico Welding is established in
Moncalieri (TO)

TODAY – GLOBAL EXCELLENCE

Persico Today: Versatility at World-Class Scale

Persico Group's employees

212 Mln €
Persico Group's preliminary
turnover Year 2025

80,000 sqm
Persico Group's buildings
worldwide

TODAY – GLOBAL EXCELLENCE

Persico Today: Versatility at World-Class Scale

From Wooden Models to Tailor-Made Solutions The Persico Evolution

Five decades of innovation, craftsmanship, and engineering excellence – realized across industries, oceans, and continents.

Automotive

Full production systems, class-A moulds, and co-design services for global OEMs.

Aerospace

Certified composite components for aeronautical and space applications.

Rotomoulding

End-to-end mould engineering for agriculture, construction, transport sectors and much more.

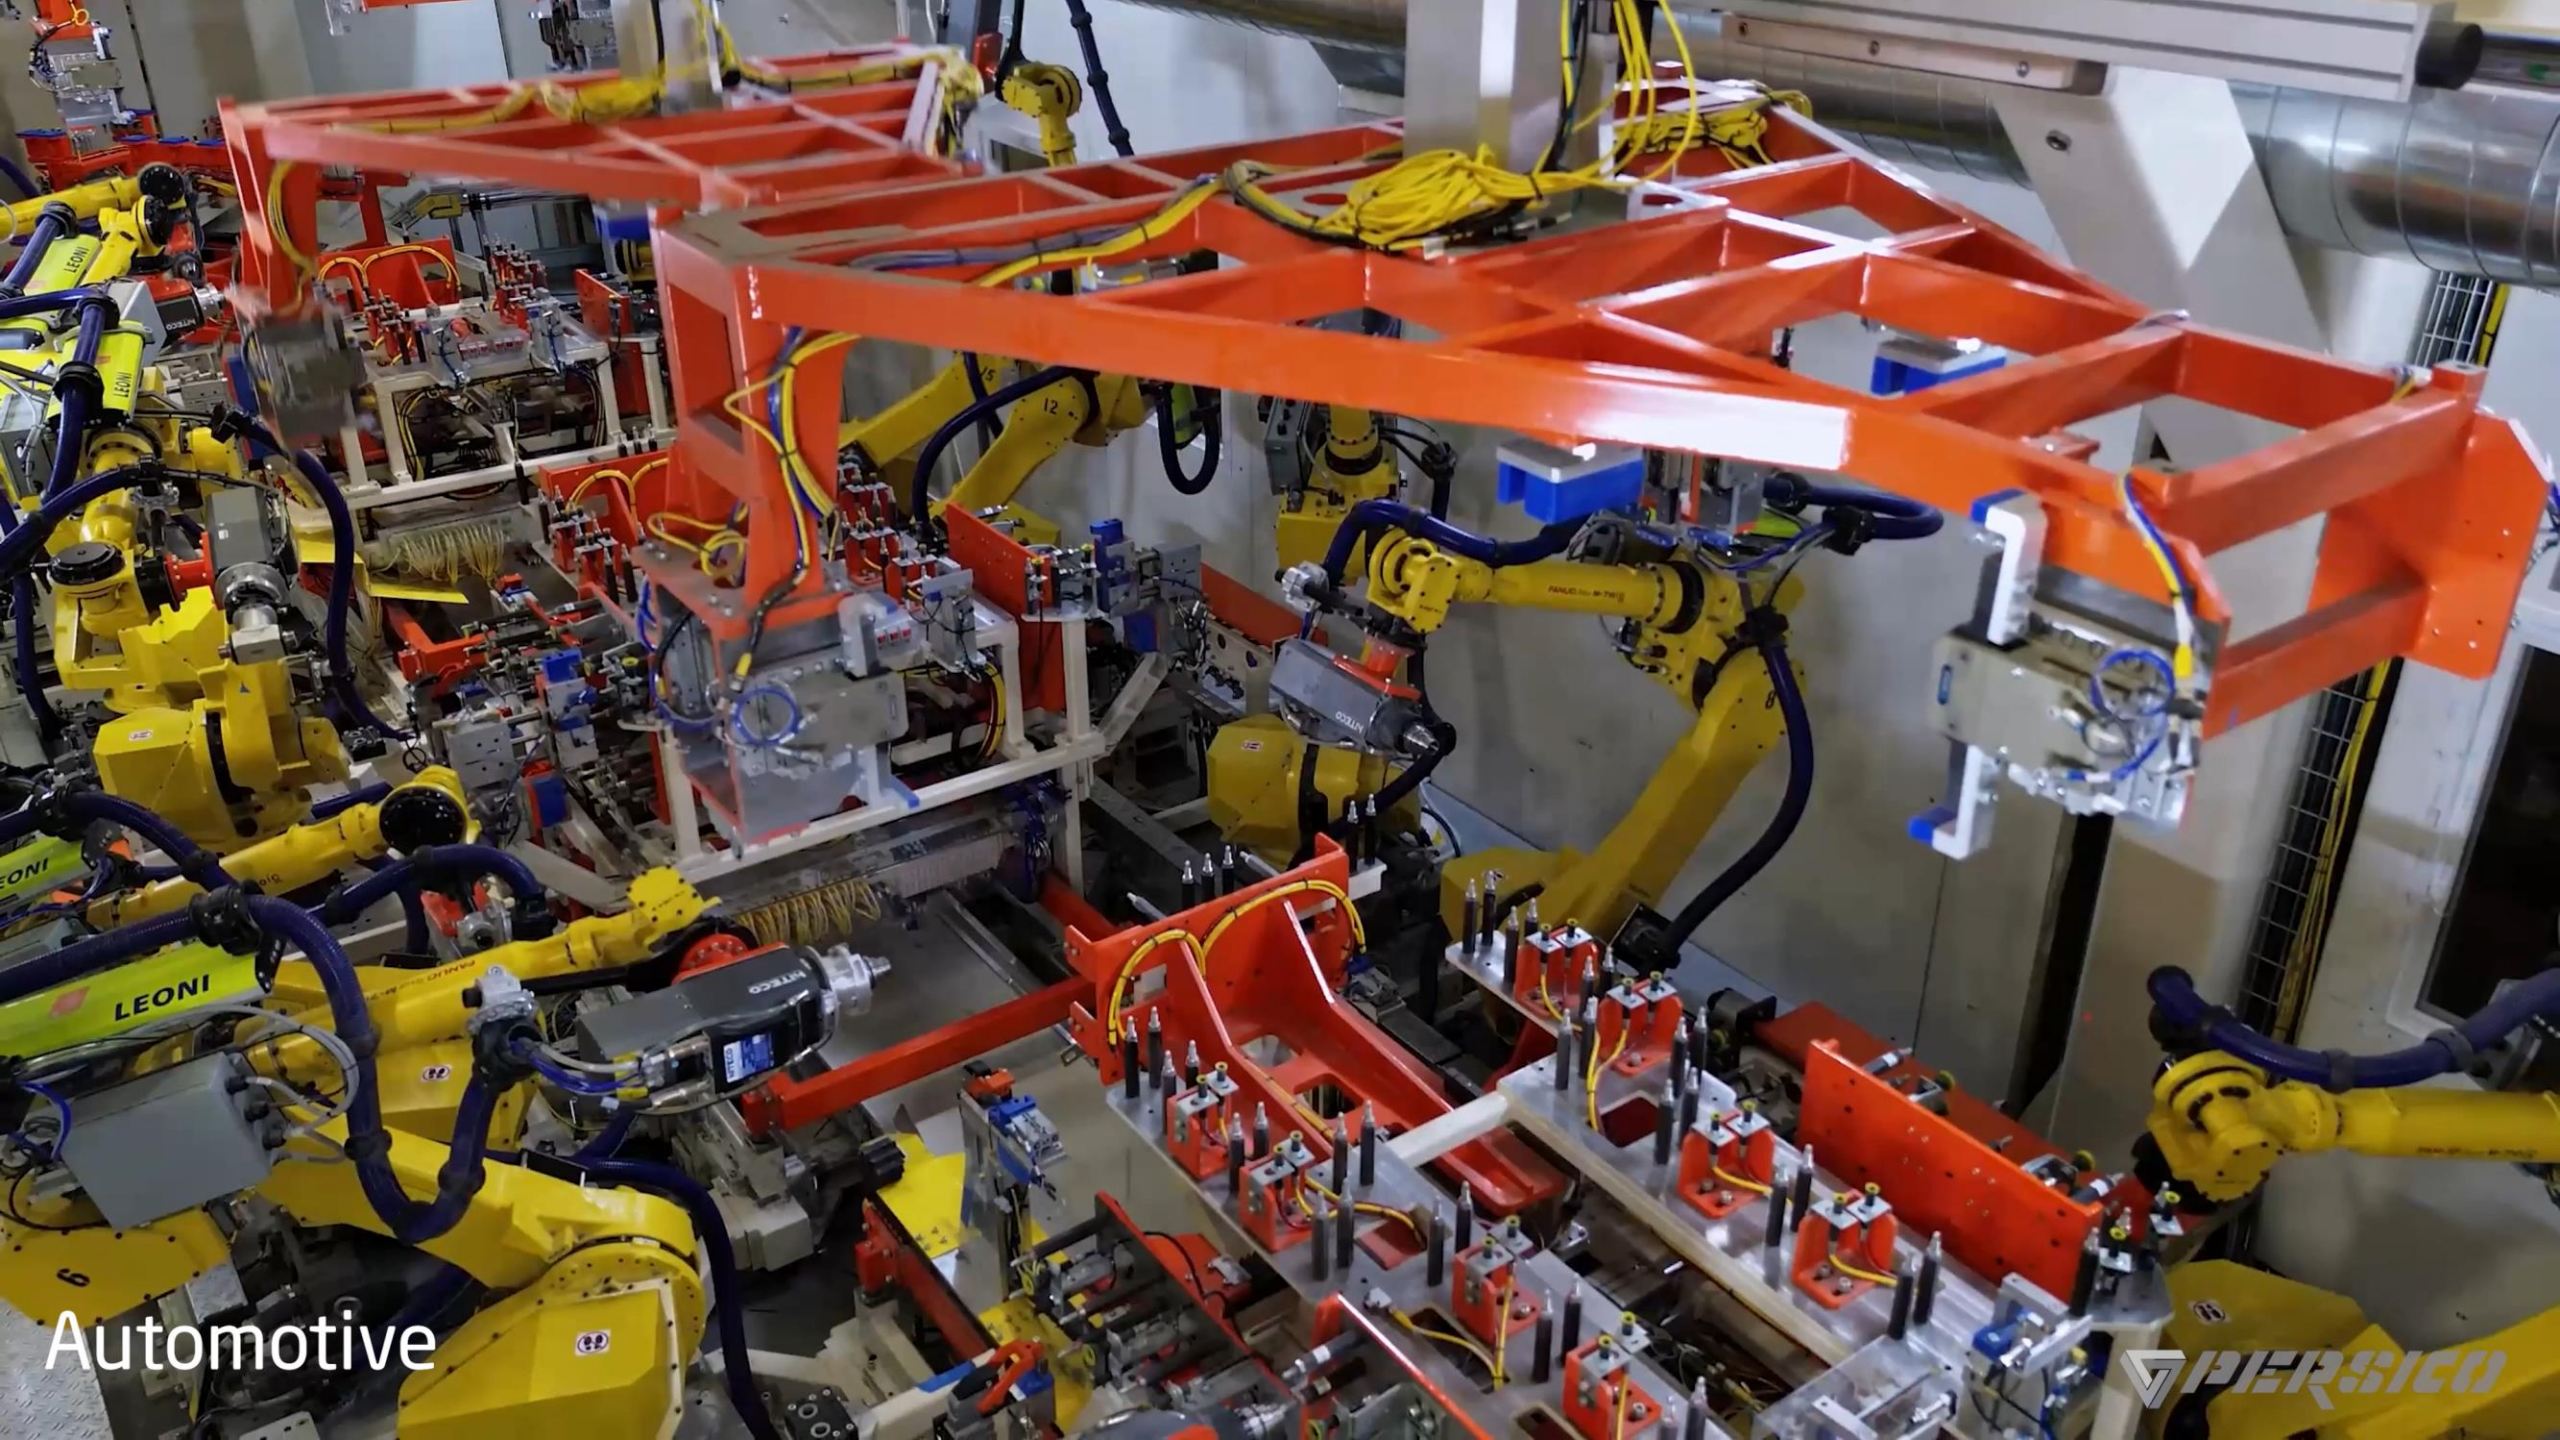

Medical

Precision plastic welding systems and mould solutions for the medical industry.

Marine

World-leading composites for racing and private yachts.

Automotive

Persico Today: From traditional to SMART®

Courtesy of: GRÜTTER KUNSTSTOFF + FORMEN AG

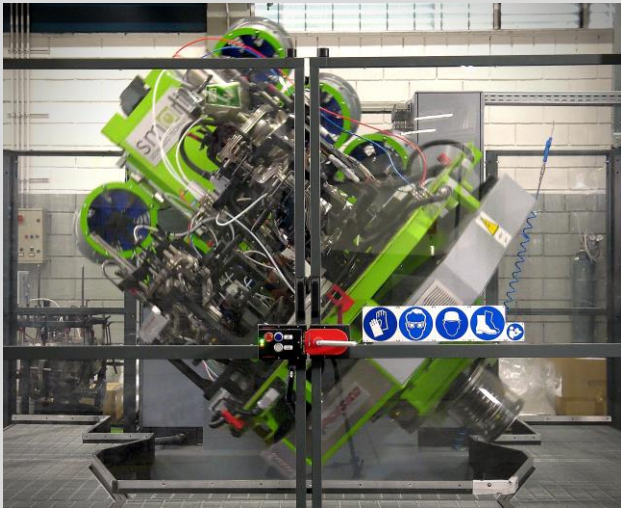

- PP Product
- Weight reduced from 25 kg to 20 kg, by directing the plastic in the areas that must be stiffer
- ~ 0% scrap
- Cycle time reduced from 1½ hours to 55 minutes
- No gas consumption (CO₂ reduction)
- Power consumption 0.78 kWh/kg
- Affordable and environmentally friendly energy thanks to their own solar power system
- No exhaust fumes
- Lower odour and heat emissions
- More pleasant working environment
- Cleaner environment
- Less space required

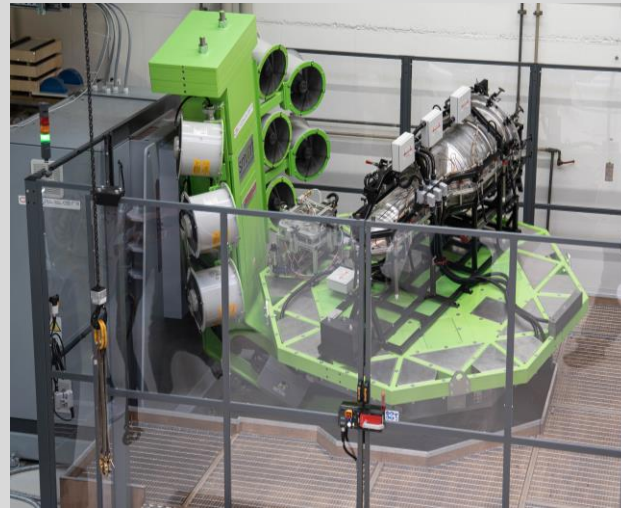

TODAY – GLOBAL EXCELLENCE

Persico Today: SMART® complete offer

SMART 1.8

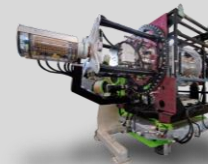

SMART 2.8

SMART H2®

SMART® 2.8

SMART® 2.8 with KIT H2®

SMART special: based on your special targets

LOOKING AHEAD

The Future of Persico: Engineering Tomorrow

Persico enters the future with the same entrepreneurial courage that Pierino Persico showed in 1976 – combining deep industrial knowledge with a forward-looking vision, while continuing to invest in traditional rotational moulding technologies and delivering customer-oriented, tailor-made solutions designed around each client's specific production needs.

Advanced Automation

Expanding robotics and AI-driven production systems across all divisions.

Sustainable Materials

Investing in eco-compatible and circular manufacturing processes.

Global Partnership Growth

Deepening strategic alliances with world leaders in every sector served.

LOOKING AHEAD

The Future of Persico: Engineering Tomorrow

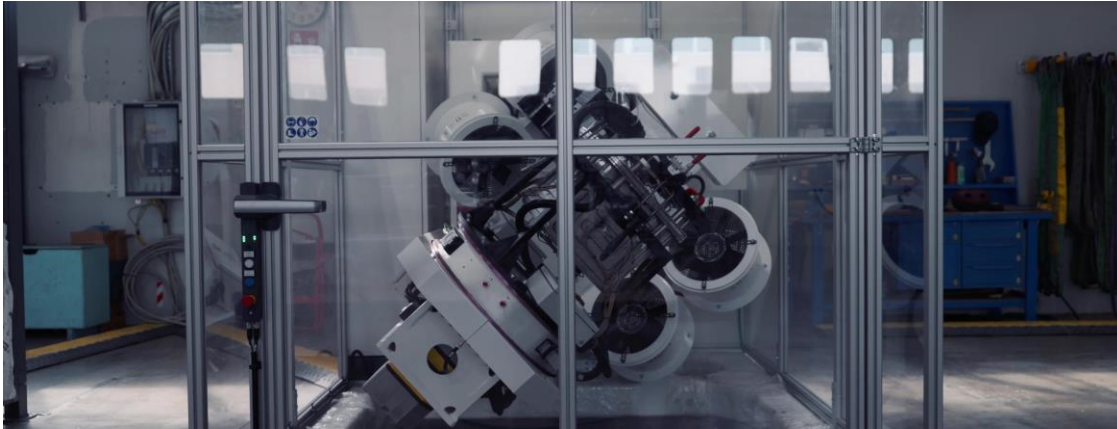

Advanced Automation

Expanding robotics and AI-driven production systems across all Business Units.

"Passion for excellence and strategic vision:

The twin engines that have driven Persico for nearly five decades, and that will power the next chapter."

Thank you
